ASSASSIN'S CREED MIRAGE

Ubisoft will release its next Assassin's Creed on 12 October 2023, Assassin's Creed Mirage, which will be available on PS4, PS5, XboxOne, Xbox Series X/S and PC.

This time the story will take place in ninth-century Baghdad, a few years before Assassin's Creed Valhalla (which began in 873). At the time, Baghdad was the largest city in the Abbasid Caliphate, if not the largest city in the world. The Caliphate was an immense empire stretching from the Maghreb to the gates of India, and it lasted until the 13th century. We'll be playing as Basim Ibn Ishaq, a character we saw in Assassin's Creed Valhalla.

The game feels like a return to its roots in terms of gameplay, going back to basics with a single dense city to explore. Players will be delighted to see the return of parkour, something that had been sidelined in previous games.
